

OWASP Ukraine

Cyber-Security Conference
November 23-24, 2018

About the conference

4th annual OWASP Ukraine 2018 - the biggest Ukrainian Application Security conference held under the aegis of OWASP Lviv, Kyiv, Dnipro and Odessa chapters. It gathers together nearly 400 attendees, including leading security experts, highly skilled software engineers and testing experts, top management and C-level management of startups, product companies and outsourcing executives, scientists and government representatives.

Conference is divided into 2 days - the first day for the professional hands-on security workshops and the second one for the hottest security talks, exciting hacking villages, IoT hacking labs and lots of other stuff.
